This agreement is to provide for the exchange of staff, scholars, students, academic information and materials in the belief that the research and educational processes at both universities would be enhanced and that mutual understanding between their respective staff, scholars and students would be increased by the establishment of such exchange programmes.

Article 1

The universities agree to promote the following exchange programmes, based on their respective academic and educational needs:

2. Exchange of undergraduate and graduate students.

The exchange programmes as mentioned in Article 2, are not intended to be legally binding documents. They are meant to describe the nature and suggest the guidelines of the exchange programme. Nothing, therefore, shall diminish the full autonomy of either institution, nor will any constraints be imposed by either upon the other carrying out the agreement.

Article 4

Both universities shall designate a programme officer to develop and co-ordinate the specific programmes agreed upon.

Article 5

This agreement has been mutually agreed to be renewed from December 2016 and will remain valid for an indefinite period, subject to review by both institutions every 5 years.
