Government Scholarship Regulations (MOFA / MOE / MOE Elite)

1. Scholarship recipients must complete the monthly signature procedure during the first week of each month. If the procedure is not completed within that month, the scholarship for that month cannot be claimed.

2. Government scholarships may only be received while the recipient is staying in Taiwan. If the recipient stays outside Taiwan for more than 15 days within a month, they will not be eligible to receive the scholarship for that month.

If a recipient leaves Taiwan without informing the university in advance, the university reserves the right to suspend the scholarship. Therefore, please make sure to notify the university before leaving Taiwan.

3. Regulations for returning to home countries during winter and summer vacations:

Undergraduate students: Since there is no research requirement during winter and summer vacations, the monthly signature procedure may be completed online.

Master's and Ph.D. students: Before returning to their home country during winter or summer vacation, students must obtain a consent form signed by their academic advisor. After returning to Taiwan, they may apply to claim the scholarship that was not received during their time abroad.
